Subject: Mandate to the European Fisheries Control Agency for the Outermost Regions

Dear Mrs. Charlina Vitcheva,

Considering that the main objective of the European Fisheries Control Agency (EFCA) is “to promote the highest common standards for control, inspection and surveillance under the Common Fisheries Policy”.

Considering also, that the European Outermost Regions have problems related to the Illegal, Unreported and Unregulated fisheries.

We kindly ask you to give a mandate to the European Fisheries Control Agency in order for them to cover the european waters of our Outermost Regions.

Best regards,

The President of the Executive Committee,

(David Pavón González)
