Subject: Recommendation about the Concept of Community Subsistence Fishery

Dear Mrs. Charlina Vitcheva,

Considering your letter of 7th of January of 2021 (reference *Ares (2021)138280*), the different typologies of recreational fisheries and the importance of the community subsistence fisheries to the Outermost Regions (ORs), the Advisory Council for the Outermost Regions (CCRUP) hereby recommends that the European Commission adopts a formal concept of community subsistence fishery, enabling these communities to keep their cultural subsistence fisheries.

Best regards,

The President of the Executive Committee of the CC RUP,

(David Pavón González)
