
Fwd: Consultation on social data and allocation of fishing opportunities: next steps

De: MARE-D3@ec.europa.eu <MARE-D3@ec.europa.eu>

Dear colleagues,

We wish to thank you for your participation in the consultation to collect feedback on DG MARE's ongoing work on social data and the vademecum on the allocation process of fishing opportunities that took place from February to April. Input and feedback are essential to our work, and we appreciate your efforts to provide an answer.

Regarding part 1 on social data, we received 24 answers to this section, which were all transmitted to STECF, who analyzed them during their expert working group (EWG) in May. The report of this EWG will be providing some very detailed recommendations on social indicators. Publication is expected in late July after STECF plenary review.

Regarding part 2 on the vademecum on the allocation process of fishing opportunities, we received 22 answers to this section, which we are currently analysing and which are informing our ongoing preparations of the draft vademecum. Further feedback from stakeholders on the draft vademecum will be gathered in the coming months.
